updated 30. 5. 2022 | published 30. 5. 2022

### Summary

An add-on diffuser for your Voron printer

[3D Printers](#) > [3D Printers - Upgrades](#)

Tags: [voron](#) [voron2](#) [vorondesign](#)

→ An add-on diffuser for the popular [LED Strip Holder for Voron 2.4 here on Printables](#)

### Sizes

Only available for 300mm Voron v2.4 for now, since it's the only one I have to test fit. Please feel free to Remix it to fit more sizes. I'm including the STEP file for modification.

### Printing settings

Recommended to be printed in Clear PETG or similar, with standard Voron print settings.

### Mounting

Uses the same screw holes from the strip holder to fit the diffuser, and requires the M3x8mm to be replaced with M3x12mm.

Happy printing!

## Model files

### led-diffusor-voron-v24-300mm.3mf

☐ Voron V2.4 - 300mm

### led-diffuser.step

☐ For modification
